

Sabrina the Magic Assistant

Braincat {Giovanni, Ramon, Albert}

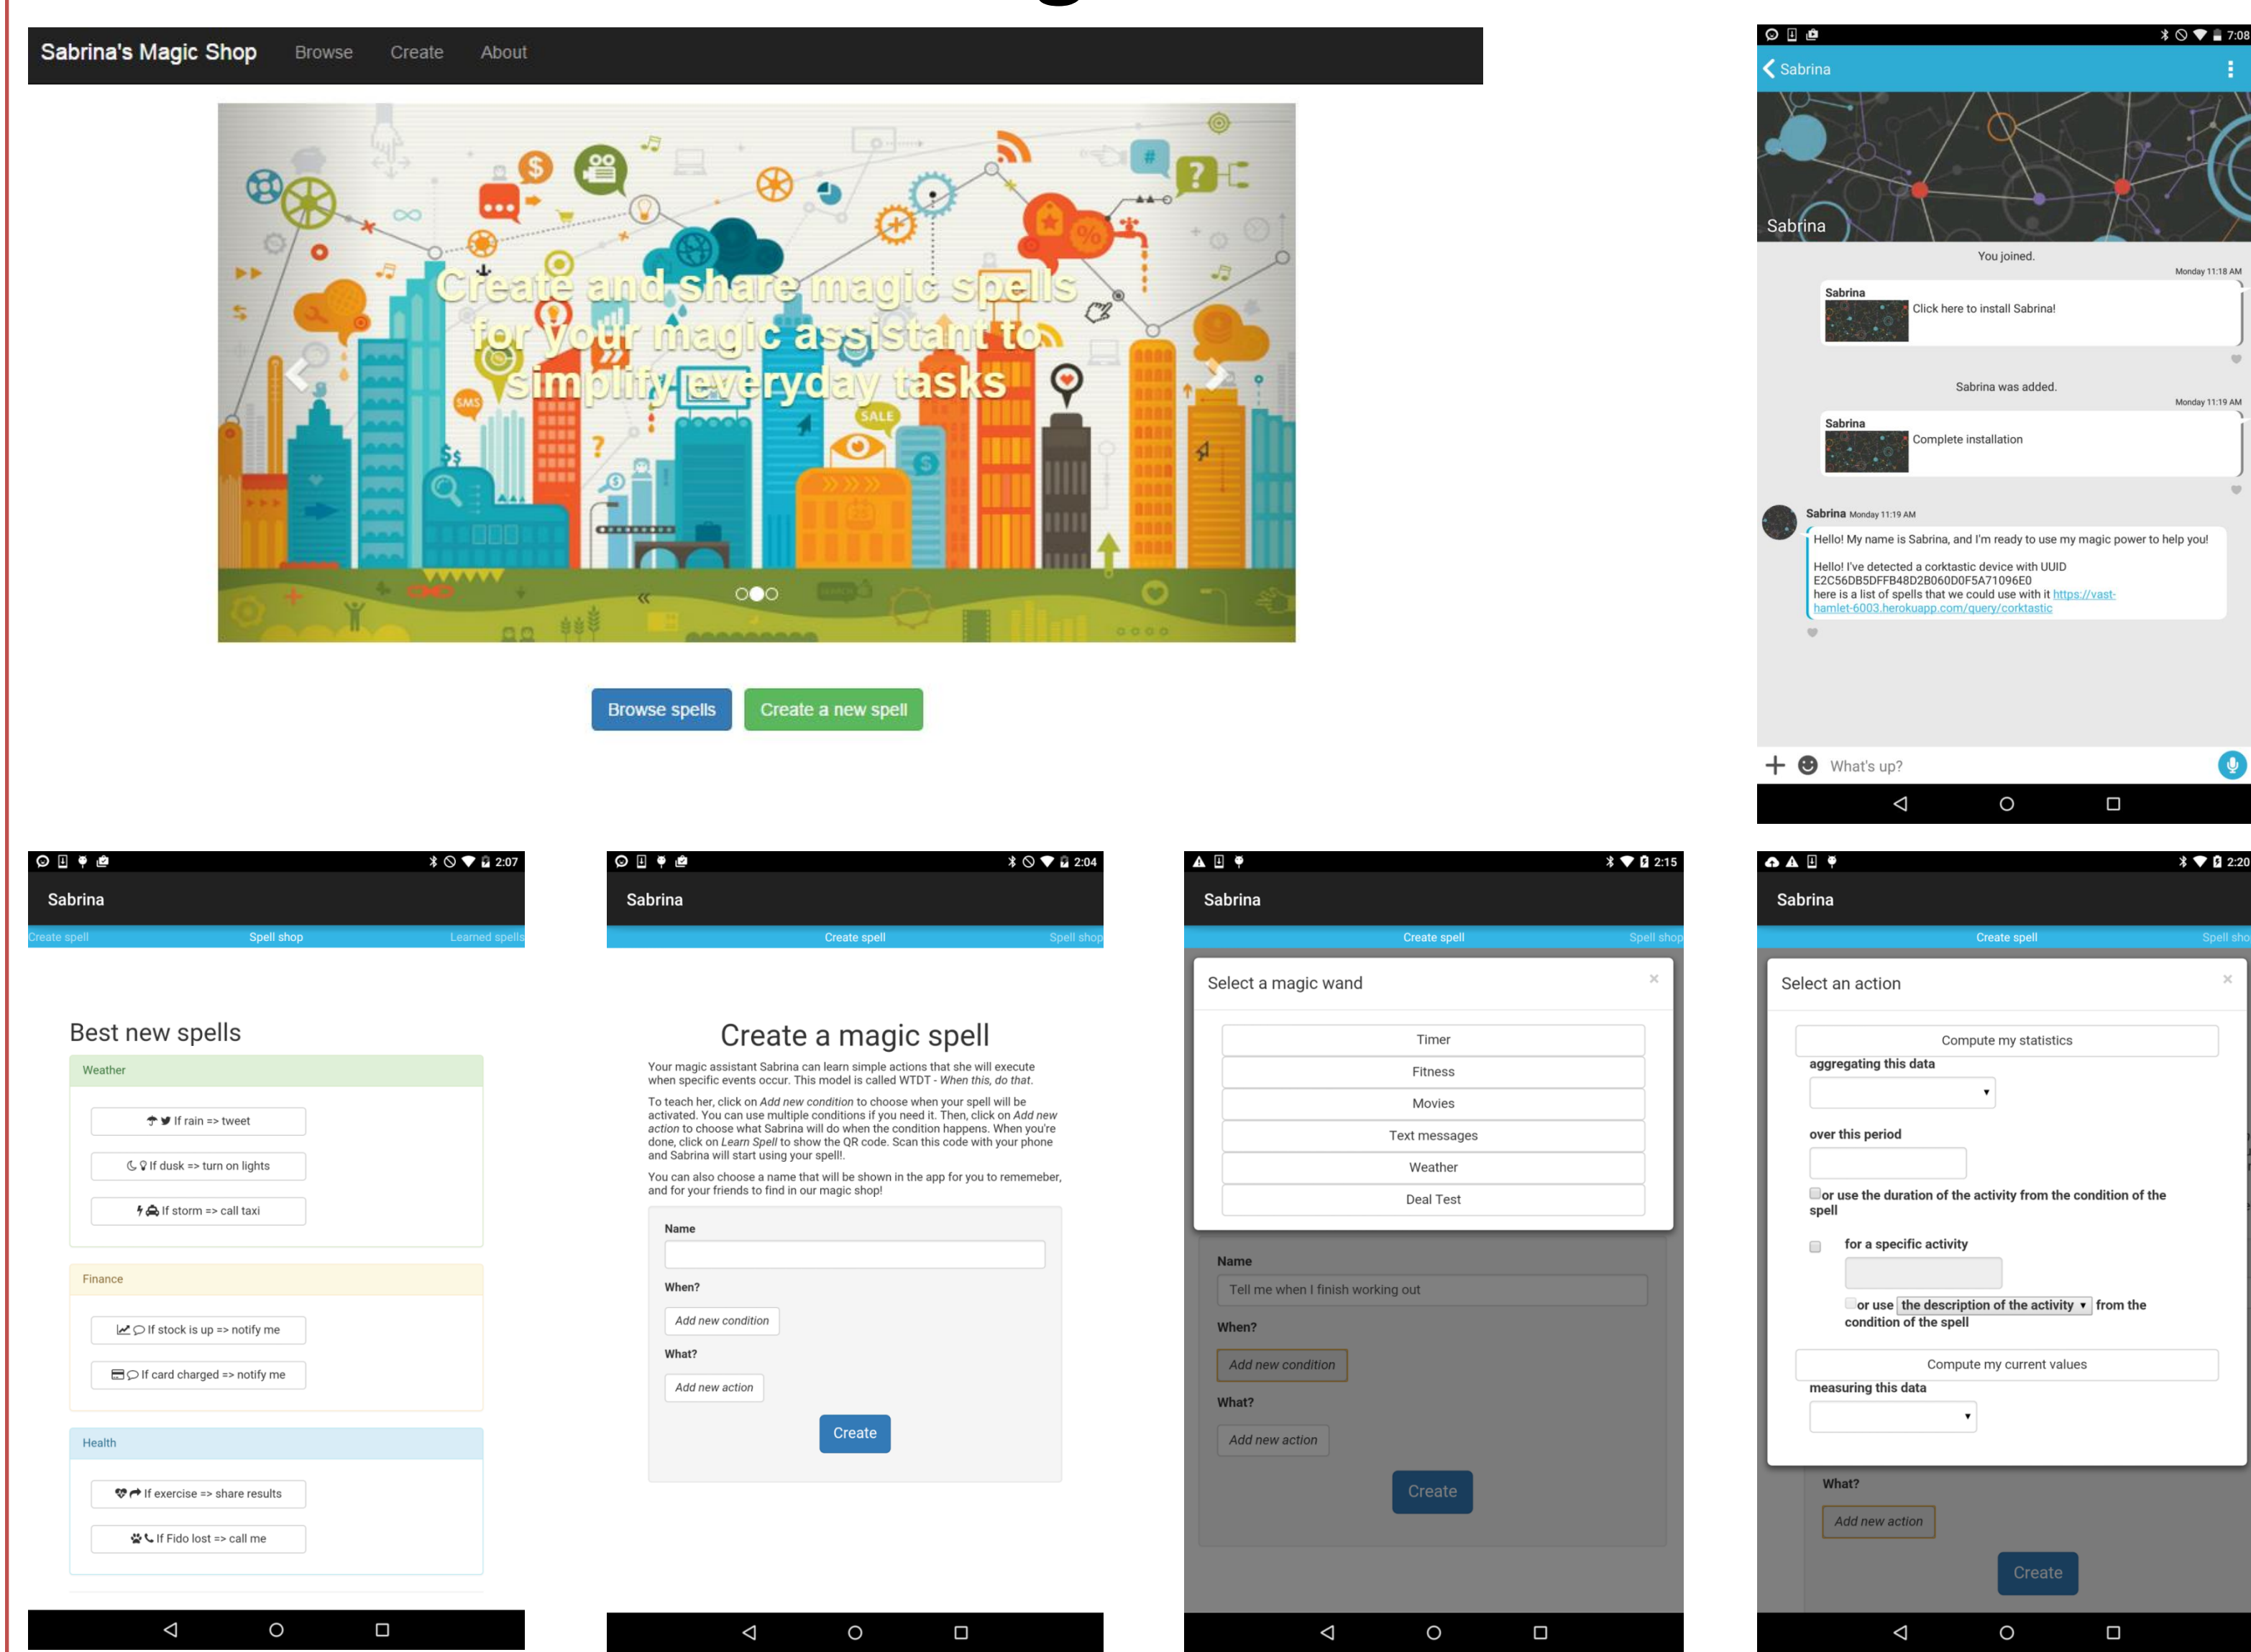

What is Sabrina?

Sabrina is an intelligent personal assistant that can help simplify your life. She can monitor events, perform actions, and even control nearby devices on your behalf. Sabrina interacts with you through Omlet Chat and gets to know you over time. By taking care of all the little details, Sabrina enables you to focus on things that matter the most in your life.

How is Sabrina different?

- Instead of an impersonal logic rule engine (like IFTTT) Sabrina is a friendly personal “witch” that communicates with you through (Omlet) chat and can learn your preferences overtime.

Using Sabrina

Future works

- Support more channels
- Improve our interaction through Sabrina
- Make it more human
- Make it more personalized
- Integrate better with Hillary, Sabrina's older sister

What can Sabrina do for you?

- Sabrina could monitor your health and call 911
- It could reschedule your outdoor event if the weather forecast is bad.
- Sabrina could even help you take control of your new smart TV/fridge.
- Detect and manage near by devices.

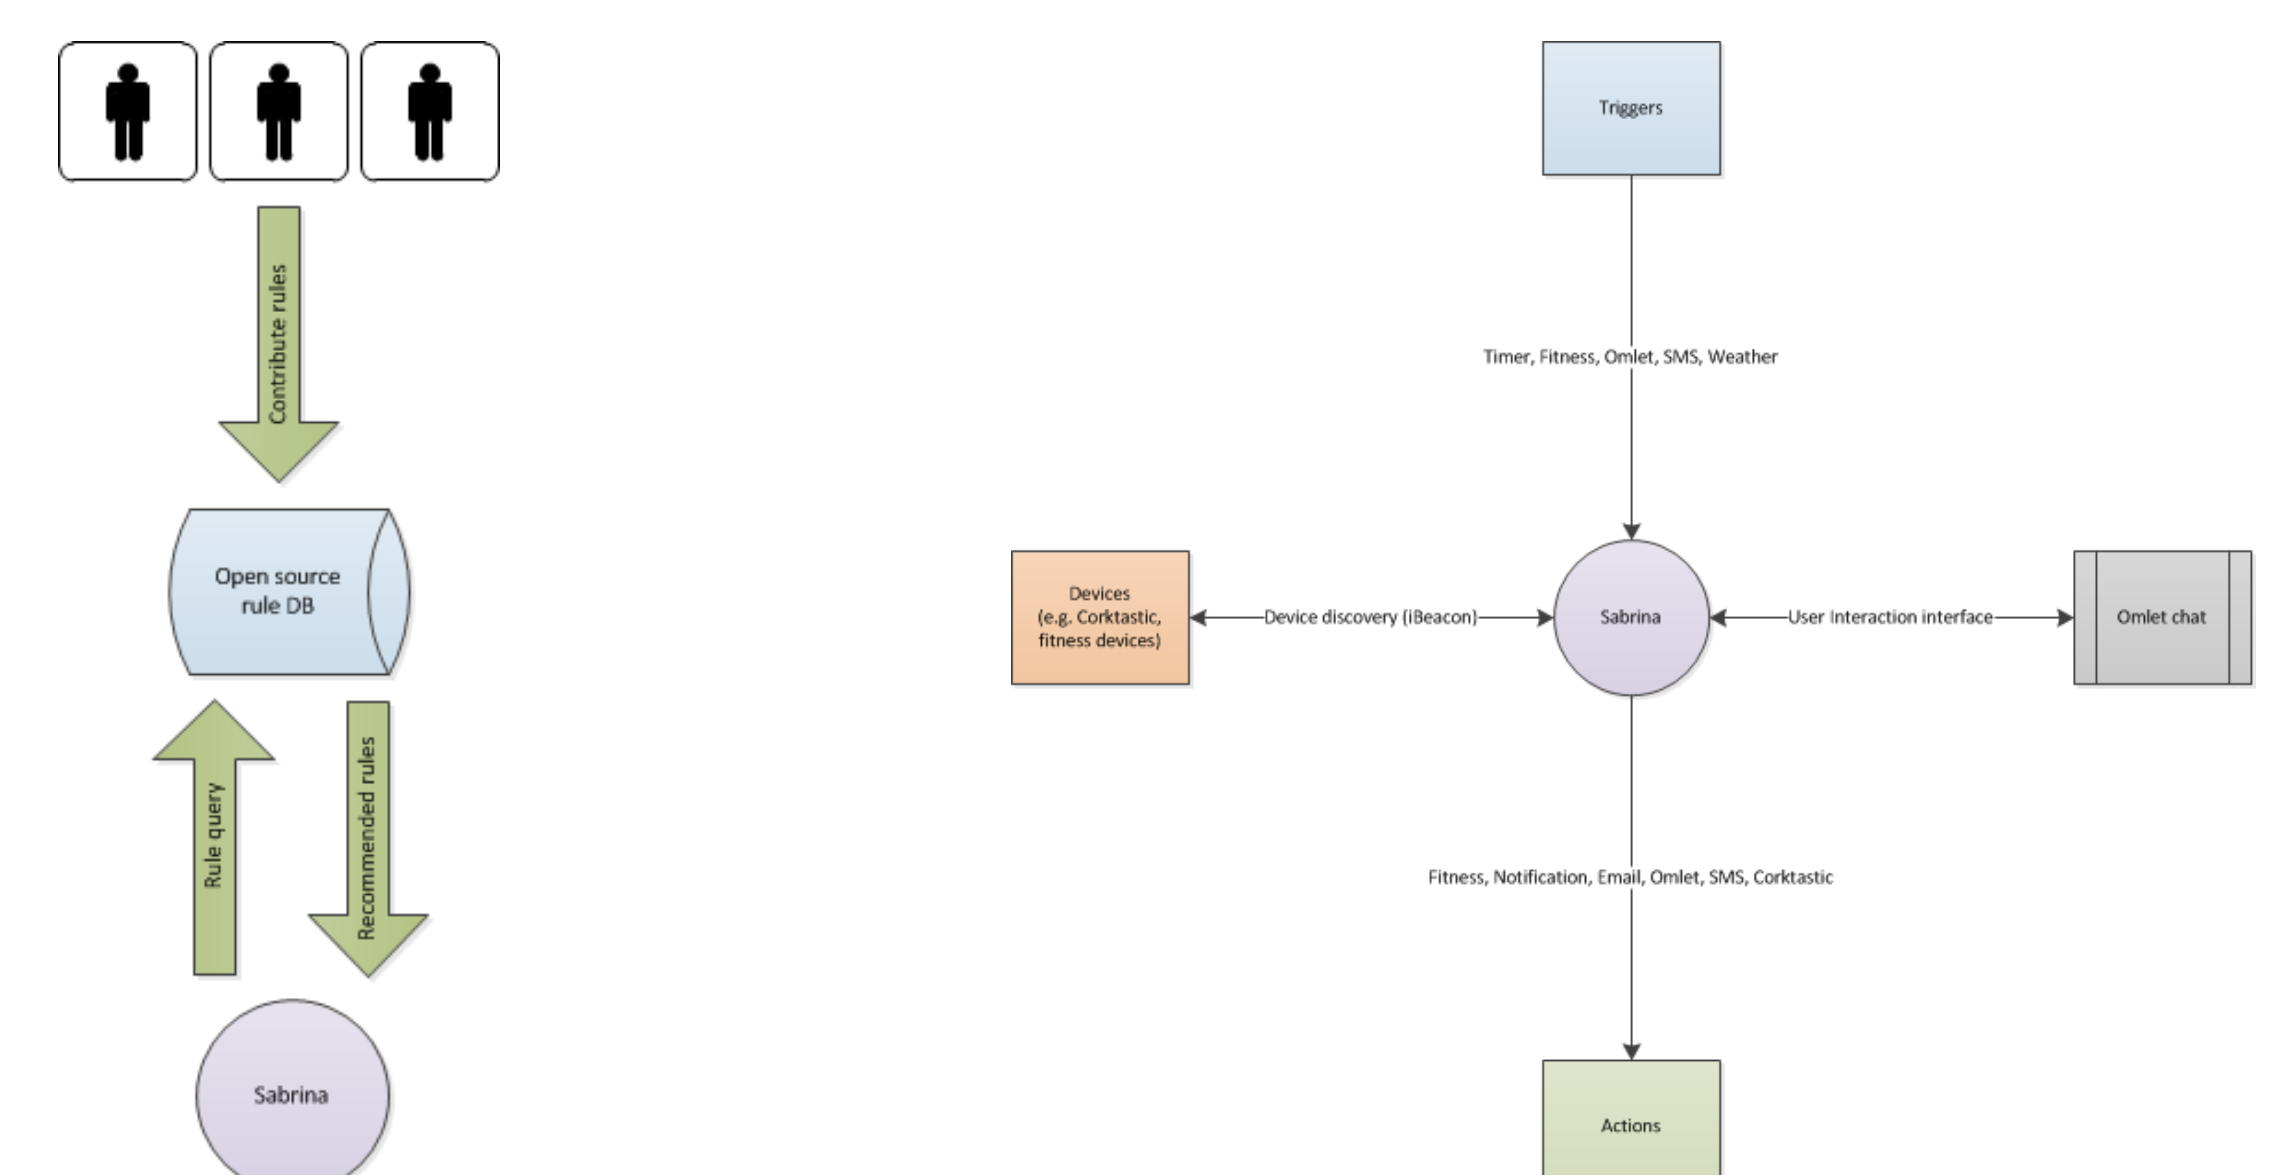

Other supported features:

- SMS and notifications
- Games
- Corktastic
- Omlet

Sabrina in real life – Example rules

- Display number of steps taken during last half hour on the closest Corktastic display.
- Send a message to your group Omlet chat if the weather forecast for tomorrow's golf game is stormy.
- Send a picture of your front porch via Omlet/SMS when someone rings the doorbell.

How does it work?
